## Make your wishes known

This leaflet is designed to act as a guide to help you record your wishes for your funeral.

### **What should you include?**

You may not have any strong feelings or preferences about your own funeral, it can still be very useful to those arranging your funeral to know this.

You may decide not to complete all of the sections; they may not all feel relevant, or you may have more information than you can fit in the boxes, but it will hopefully give you somewhere to start.

It is not always easy to start the conversation about our own funeral and mortality. This leaflet may be a useful conversation starter.

## Burial or Cremation?

If you don't decide on anything else then this is probably the one choice you can make that will greatly help those arranging your funeral.

**Would the service be at a church? At the Cemetery & Crematorium Chapel? Somewhere different or no service at all?**

### **If you would like a Burial**

Where would the service be held?

Where would the burial take place?

Is there an existing grave?

This may be a grave that you have purchased in reserve or a family grave.

Additional information

### **If you would like a Cremation**

Where would the service be held?

What would you like to happen with your ashes?

## Choice of Coffin

There is a wide variety of coffins available for both burial and cremation. Our most popular is our standard light oak veneered coffin. The alternative choices include solid wood, cardboard, wicker and picture coffins.

### **My coffin preference would be**

### **Would you like a Religious Service?**

### **Who would you like to take the service?**

A Priest or Vicar?

A Celebrant?

Friend? Family? No One?
